Matt Eyre reported that in the absence of a committee chair;

- He'd worked with Landscape committee members David Lindbergh, Michael Kathriner and Robert Warden to agree plans and budget of \$5,400 for the acquisition and planting of over 50 new plants for the PIN grounds - including a replacement citrus tree for the one removed in error by Prime Landcare earlier in the year outside the Miller / Nichols residence (640VC).
- The committee members were in full agreement that this work was ready to authorize and urgently needed to be scheduled, to give us the best chance of completing prior to the Modernism Week tours that helps us raise money for landscaping and architectural work within the community.

David Lindbergh of the Landscape Committee confirmed;

- That he had drafted a planting plan and budget (at a cost of \$5,400), relayed the purchasing requirements to our landscaping contractors Prime Landcare, and confirmed their availability to complete the purchases and complete the planting with his supervision, starting in the week of January 15th. He provided an update of all of the plants on the acquisition list.
